Each of the twenty wells hereinabove referred to drilled by Lessee under the terms and provisions of this lease shall perpetuate said lease, insofar as it affects the unit upon which said well is located, so long as said well is capable of producing oil or gas in paying quantities.

In the event Lessee has not commenced the drilling of a well on each of the units hereinabove provided for on or before the 23rd day of October, 1935, this lease, as to such unit or units upon which a well or wells has not been commenced, shall terminate as to both parties, unless the Lessee on or before that date shall pay or tender to the Lessor, through Register of the State Land Office, at Baton Rouge, Louisiana, the sum of Seven Hundred Fifty and no/100 (\$750.00) Dollars for each of such units then undeveloped with respect to which Lessee wishes to continue said lease in full force and effect, which payment shall operate as a rental and cover the privilege of deferring the commencement of a well or wells on such unit or units for a period of twelve months from said date. In paying or tendering the aforesaid deferred rental payments, should Lessee elect not to maintain said lease in force by said payment as to each and every unit upon which development has not commenced as of the date when such payment is due, Lessee shall

then accompany such payment or tender with a detailed statement showing the particular unit or units covered by the rental payment then being made. In like manner and upon like payments or tenders, the commencement of said wells or any of them may be further deferred for a like period for the same number of months successively, provided this lease shall not, in the absence of production, as otherwise herein noted, be kept in force as to said tracts described in Items "A,B,C,D,E,F,G and H" above, through said payments for a period longer than five years from October 23, 1935; and it is further provided that the lease herein granted, in so far as it embraces and affects the twenty locations hereinabove described, shall continue in full force and effect until October 23, 1940, and during said time shall not be forfeited or annulled as to all or any of said units or locations, for any cause whatsoever other than the failure to pay the annual rentals or renewals hereinabove provided for.

A well shall be deemed to be commenced when the first material for drilling operations is placed on the ground.

If in the exercise of the rights herein granted, oil, gas or other minerals be discovered, then this lease shall continue in full force and effect so long as such oil, gas or other minerals can be produced by the Lessee.

Lessee may drill as many wells (additional to the fifty wells above mentioned) as Lessee may choose, but this lease shall not be construed so as to create or impose upon Lessee any express or implied obligation to drill such additional wells; and all wells drilled by Lessee (including the first fifty and any additional wells) shall be drilled at such locations as Lessee may select."

"III.

Insofar as this lease covers and affects property not covered by Items "A,B,C,D,E,F,G and H," said items set out particularly in Paragraph I hereof, it is agreed after the first well has been drilled to completion, should Lessee elect that it no longer cares to carry on drilling operations, then the said Lessee is granted the right to cease such operations, and Lessee shall, if it so elects, retain its rights in and to ten (10) acres of the property for each and every well which Lessee shall have drilled thereon in an effort to produce oil or gas therefrom; provided that said well or wells shall be located on that portion or portions of the property so retained by Lessee; and provided, further, that Lessee's rights in and to that portion of the premises so retained shall endure only so long as Lessee shall produce oil, gas or other minerals from one or more of said wells on said premises in paying quantities.

Should Lessee at any time elect to abandon operations as above provided, then Lessee shall notify Lessor in writing of its intention to so do, and shall specify what portion or

portions of the said premises the said Lessee is entitled by virtue hereof to retain and operate; and Lessee shall, as soon as practicable thereafter, execute any instrument or instruments necessary to a proper release of the undeveloped portion of the premises."

"IV.

Insofar as this lease covers and affects property not covered by Items "A, B,C, D, E, F. G and H," said Items set out particularly in Paragraph I hereof, it is agreed after the first well has been drilled to completion, should Lessee elect to abandon drilling operations hereunder, then the said Lessee shall be entitled to retain its rights in and to forty (40) acres for each and every gas well from which it shall at such time be producing gas in paying quantities; provided, also, that any well or wells so producing shall be located on that portion or portions of the property retained by Lessee; and provided, further, that Lessee's rights to so hold such portion or portions of the said premises shall endure only so long as Lessee shall produce therefrom gas in paying quantities."

Except as herein clarified, interpreted and amended, said lease is to remain in full force and effect.
